## Why Be Afraid of Good Food?

Eat What You Like Best but Follow It With a Stuart's Dyspepsia Tablet.

When the stomach sours or becomes gassy, with heartburn, it needs the alkaline effect to offset the acid condition. This you get

from one or two Stuart's Dyspepsia Tablets.

Relief is usually very prompt. The regular use of these tablets after meals gives the stomach and small intestine substantial help to digest food and you will then be bold enough to eat baked beans, fried eggs, sausage, buckwheat cakes and many other things you thought would make your stomach miserable. Get a 60-cent box of Stuart's Dyspepsia Tablets at any drug store and you will then eat whatever you like and be fortified against the acid, sour stomach due to indigestion or dyspepsia.—(Adv.)
